Club Mission Statement:-

Loughborough Town Swimming Club aims to be recognised in Leicestershire as a club which helps athletes achieve their personal goals in competitive swimming by improving their swimming skills and fitness and by providing regular competition opportunities at all levels.

To achieve this we will ensure all athletes have personal goals within a structured programme, led by qualified coaches and teachers.

We will strive to provide the best environment available for our members for both training and competition, by establishing and maintaining links and partnerships with all facility providers and local authorities.
